Dear Mr. and Mrs. Bigas:

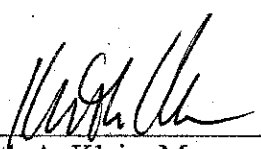

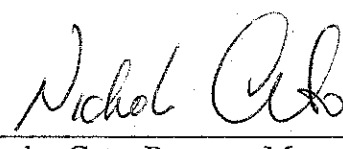

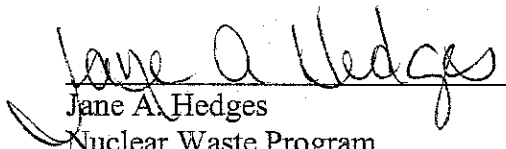

EDMC

**ACTION MEMORANDUM AND RESPONSIVENESS SUMMARY FOR THE 224-T
PLUTONIUM CONCENTRATION FACILITY ENGINEERING EVALUATION/COST
ANALYSIS**

Thank you for your comments on the 224-T Plutonium Concentration Facility Engineering Evaluation/Cost Analysis. Responses to those comments are addressed in the enclosed Responsiveness Summary along with the Action Memorandum.

The Tri-Parties appreciate the time and effort you took to provide input on this document. Due to a focus on higher priority cleanups, the Tri-Parties agreed to put off the implementation of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) non-time critical removal action for the 224-T Facility. Therefore, since the CERCLA removal action is on hold, high priority was not given to responding immediately to the comments on the EE/CA.

If you have questions, please contact Larry Romine, U.S. Department of Energy, Richland Operations Office, at (509) 376-4747 (Larry_D_Romine@rl.gov) or Rick Bond, State of Washington Department of Ecology, at (509) 372-7885 (fbon461@ecy.wa.gov)
